- **Project Details**

## Stanley Avenue Storm Pipe Replacement

Published on City of Milwaukie Oregon Official Website (<http://www.milwaukieoregon.gov>)

---

• This project will replace aging undersized cast iron storm pipe with new highly durable plastic pipe that will relieve flooding in the project area. The City has hired AKS Engineering and Forestry to perform the survey and design of this project. The pipe replacement project will be designed this Spring and the City anticipates construction of the storm pipe replacement this summer.
